

Development of textile fabric stain remover using plant-based constituents

(M/s. Biological Research Innovation Centre and Solutions LLP: A Start-up Incubated and Financially Supported by CIRCOT R-ABI, Mumbai)

- Environment Friendly
- Safe to use & Biodegradable ingredients
- Rapid Biosynthesis of Silver Nanoparticles
- Easy to use & Not damage the original fabric structure
- Retains freshness and original fabric quality
- Value addition to soapnut crop

With Stain remover

After

Incubation Support:

M/s. Biological Research Innovation Centre and Solutions LLP has been incubated at CIRCOT- R-ABI under the 3rd Cohort of the RKVY RAFTAAR scheme and sanctioned as Ankur (Seed Stage) Funding Program of Rs 19 lakhs.

The incubation helped the startup to promote products in the market and the farmers set up the new products. The CIRCOT R-ABI expert's view helped the startup to channel the program on right track and expand the business idea to farmers all over India.

CIRCOT R-ABI promotes startups in various types of exhibitions across India and promotes their products in various universities, KVKs, scientists and other state farmers.

Founder:

Mr. Ravishankar Bhat well-educated entrepreneur from Bengaluru. He is Ph.D. in Materials Science. He found that Conventional Stain Removers are filled with harsh chemicals that will damage the original quality of fabrics and also the manufacturing process causes pollution. developed soapnut extract enabled nanoparticle-based novel Textile Fabric Stain remover. This Natural Stain Remover helps to remove tough stains on cotton fabrics, synthetic materials, silk, linen materials and other types of special fabrics. The nanotechnology-based approach in the synthesis process gives additional value to the product in targeted approach and quick removal of hardest stains on fabrics.
